

FORTRESS

Oliver Seeds

PROBABLY THE BEST LONG TERM CUTTING AND GRAZING MIXTURE AVAILABLE

A blend of intermediate and late Perennial Ryegrasses with Timothy, Festulolium and White Clover

- Contains a high percentage of leading late heading Perennial Ryegrasses for ease of management
- Combines yield and quality with hardiness and a very dense sward
- High degree of adaptability from a range of varieties and species
- Relatively high dry matter for less silage effluent and easier hay making
- Tolerates high water tables and occasional flooding

Yield potential 17.6 tDM/ha in the first year

Also available with 2% Forage Rape added top the mix

Sowing Rate 13 to 16 kg/acre

Pack Size 20kg
